

## Happy Birthday to Buckles and His Horse Friends !

All Thoroughbred Horses in North America celebrate their birthdays on January 1st! This helps owners, trainers, racetrack officials, and everyone in the Thoroughbred industry keep track of how old a horse is and what races it can run in based on its age!

The New Year also starts the foaling season when most Thoroughbreds are born.

## **Save the Date**

**Spring Race Meet | April 4-25**

**Sunrise Trackside | April 5, 12, 19**

**Kids Club Family Day | Sunday, April 6**

**Derby Day | Saturday, May 3**

## **Membership Updates**

Thanks for being a valued member of the Keeneland Kids Club. Your membership has been automatically renewed for the 2025 year. If you wish to no longer be a member or need to update your information, please email [kidsclub@keeneland.com](mailto:kidsclub@keeneland.com).

# FROZEN BUBBLES

### Materials

- 1 cup warm water
- 1/2 Tbsp corn syrup
- 2 Tbsp sugar
- 2 1/2 Tbsp Dawn dish soap

### Procedure

1. Warm up the water
2. Mix in 2 1/2 tablespoons of corn syrup
3. Mix in 2 tablespoons sugar
4. Lightly mix in 2 1/2 tablespoons of dish soap - add this last to minimize extra bubbling
5. Put your bubble solution in the freezer or outside if it is really cold for about 30 minutes or until it is really cold
6. BLOW BUBBLES AND SEE WHAT HAPPENS!

### HOW DOES IT WORK?

While it looks like the entire bubble is freezing, the bubble is actually three layers of liquid. There is a layer of water sandwiched in between two layers of bubble solution. The bubble's surface and interior layer don't freeze. The middle water layer is the portion that freezes and forms those crystalline patterns during the experiment as it freezes at a higher temperature than soapy water.
